Summary

- I am a highly experienced professional in web development and digital design, with a solid portfolio of web applications featuring engaging, creative, user focused outputs. My skill set includes full stack development using MERN Stack, JavaScript, ReactJS, & HTML5. Additionally, I possess high proficiency in Adobe Creative Suite, Poser-3D, and game development in C# using Unity Game Engine. I also offer a quick ability to rapidly adapt to new & industry-specific products.
